The Institute of Bioinformatics at the University of Georgia (UGA) invites applications for multiple Institute of Bioinformatics Fellowships to support Ph.D. training in Bioinformatics. Candidates are expected to have demonstrated proficiency (e.g. certificate, major or minor) in one or more of the quantitative disciplines that serve as a foundation for bioinformatics research, including mathematical, computational, and physical sciences and engineering.

Successful applicants will receive a stipend of $32,000 for each of three years. Both domestic and international students are encouraged to apply. For full consideration, please send your CV (including relevant classes), Statement of Purpose, and unofficial GRE scores to iobadmit@uga.edu. International applicants should provide unofficial TOEFL scores, if applicable. The deadline for consideration is Feb 1, 2017.

Bioinformatics Fellowships 2017

The mission of the Institute of Bioinformatics (IOB) is to train graduate students in cutting edge bioinformatics research and its applications. Our goal is for students to attain mastery and leadership in this new interdisciplinary field. IOB strengths include the integration of wet laboratory approaches with cutting edge computational approaches. More information about the Institute and our graduates is available at: iob.uga.edu

The University of Georgia is an Equal Opportunity/Affirmative Action Institution. All qualified persons will be considered without regard to race, color, religion, sex, national origin, disability, gender identity, sexual orientation or protected veteran status.
